

ANNUAL IMPACT REPORT

May 17, 2022

As we close our fiscal year, we want to say THANK YOU! Thank you to all of you for your unwavering support this year. We navigated 2021-2022 with our ever-changing “new normal.” We saw a massive influx of people who needed our help. Some could not get in to see doctors during the height of the pandemic. Now they are diagnosed and going through treatment. Our patients faced unexpected consequences of the pandemic: their dual-income household is now down to one because the other is now immune-compromised and going through treatment. Financial stress, emotional stress, and physical stress are all realities in the lives of who we help every day. These uncertainties, more than ever, highlighted the need for the support services provided by the Arizona Oncology Foundation.

Our Craycroft Resource Center is busier than ever. Patients undergoing cancer treatment or facing a new diagnosis have a safe, welcoming place to get fitted for a wig or head covering, bra or prosthesis, or to receive integrative therapies like manual lymph drainage, massage, reiki, reflexology, or acupuncture.

We opened a new Welcome Center inside the waiting area at Arizona Oncology’s Wilmot location. This space allows us to have daily contact with those seeing their oncologists and going in for treatment. This gives us the opportunity to share our free programs and services with them.

We thank our volunteers that have been with us during the pandemic, helping people get the support they need every day. We cannot do what we do without our volunteers, and we are truly grateful they left the comfort of their homes in a pandemic to help those who needed it most.

We take pride in our ability to help fill the gaps that may appear along the path to survivorship. Whether that involves assisting in a patient’s ability to get to treatments (through our transportation and lodging assistance programs), helping a patient once again find confidence and self-worth (through our free head covering and prosthetic programs or our professionally facilitated support groups), or aiding in a patient’s recovery from treatment (through our massage, acupuncture and other modalities), our primary goal is to help as many patients as possible have the opportunity to live longer, healthier lives.

Please find our Annual Impact Report attached. You will see how your generosity directly impacted the lives of thousands of cancer patients and their families in Arizona. On behalf of the Arizona Oncology Foundation, THANK YOU for your generous support. You allowed us to continue to offer the programs and services which directly support those who need it most.

Thank you,

Alba Rojas-Sukkar
Executive Director
Arizona Oncology Foundation

Robin Loomis
Board President
